

BRAND NEW

# STATE OF THE ART TECHNOLOGY

P-Laser HQ has developed a new laser head that makes laser cleaning so much easier. The head is 40% lighter than the traditional head, so you can work with it longer and thus ergonomically sound.

Because the head is also smaller, you can maneuver it more easily in small spaces and corners. The head has an integrated laser status with LED lighting.

---

**SAME POWER, BETTER WORKING**

---

## FOR COMPACT SERIES

This accessory can only be combined with the Compact Series. These are the lasers from 50 to 100W

---

**LONGER WORKING HOURS**

---

### Same Power

Because it is the same power source, you receive the same results in cleaning.

### Easier to manoever

Find your way around the smallest corners!

### Better Balance

This lightweight will give you an easier grip.
